

Purdue University Calumet is making significant changes to improve web access and services to students. We currently offer students a variety of web services in admissions, registration, online deferments, online payment plan, view of academic record, view of financial status and awards, online courses, electronic course interaction and network computing.

In order to continue to protect your identity, consolidate your login into a single sign-in and provide one convenient entry point for web services via our new web portal, your login user name will need to be changed. Your new login is now called a **Career Account**.

The University will be implementing an online payment system powered by TouchNet and a student web portal called myPUC. TouchNet will be accessible through PC STAR.

The implementation will be a staged approach allowing students to continue to access enrollment web services with their current logins until the consolidation of web services takes place during the Spring 2009 semester. **Starting spring 2009, all services will be accessible only through myPUC web portal.** ~~myPUC~~

Continued Access until Spring 2009

 **PC STAR**

Coming August 2008

Login Name/Purdue ID#:

Personal Identification Number (PIN):

Starting on **August 7, 2008** - To Access

Your New Login Name/Career Account:

Password (New 8 Characters) *

*Students must change password upon login for security reasons
